UI/UX DESIGNING

Design Better Experiences. Build Modern Interfaces. Create User-Centred Digital Products.

Aayush Institute of Professional Studies offers career-oriented **UI/UX Designing training** for students, graduates, freshers, working professionals, aspiring designers, developers and career changers who want to develop practical digital design skills.

The programme combines **User Experience (UX), User Interface (UI), design thinking, user research, wireframing, prototyping, visual design, usability and practical project development**.

Learners can work with modern design tools such as **Figma** and develop portfolio-ready interface and user experience projects.

WHAT IS UI/UX DESIGNING?

UI (User Interface) Design focuses on how a digital product looks and how users interact with its interface.

UX (User Experience) Design focuses on how users experience a product, how easily they can complete tasks, and how the overall journey can be improved.

A complete UI/UX design process can include:

Research → Understand → Define → Plan → Wireframe → Design → Prototype → Test → Improve → Handoff

UI/UX skills are used across:

- Websites
- Mobile Applications
- Web Applications
- E-Commerce Platforms
- SaaS Products
- Business Applications
- Dashboards
- Digital Services
- Customer Portals

WHO CAN LEARN UI/UX DESIGNING?

The course can be suitable for:

- 10th / 12th Pass Students
- ITI Students
- Polytechnic / Diploma Students
- BCA / B.Sc. Students
- B.Tech / B.E. Students
- MCA / M.Tech Students
- Graduates
- Freshers
- Working Professionals
- Graphic Designers
- Web Designers
- Web Developers
- Digital Marketing Professionals
- Product / Business Professionals
- Freelancers
- Entrepreneurs
- Career Changers

No advanced design background is required for a beginner-level programme.

UI/UX DESIGNING LEARNING PATH

01. DESIGN & DIGITAL PRODUCT FUNDAMENTALS

Understand the role of design in websites, applications and digital products.

Topics Include:

- Introduction to UI Design
- Introduction to UX Design
- UI vs UX
- Digital Product Design
- User-Centred Design
- Design Thinking Fundamentals
- Design Process
- Visual Communication
- Basic Design Principles

---

02. DESIGN PRINCIPLES

Build a strong foundation in visual and interface design.

Topics Include:

- Layout
- Alignment
- Spacing
- Contrast
- Balance
- Hierarchy
- Repetition
- Proximity
- Visual Consistency
- Grid Systems
- Composition

- Colour Fundamentals
- Typography
- Iconography

---

03. USER EXPERIENCE FUNDAMENTALS

Learn how to design around real user needs and behaviour.

Topics Include:

- User-Centred Design
- User Needs
- User Goals
- User Problems
- User Personas
- User Scenarios
- User Journey
- Customer Journey Mapping
- Information Architecture
- User Flows
- Task Flows
- Usability Fundamentals

---

04. UX RESEARCH

Understand how designers collect and analyse information before creating a digital product.

Topics May Include:

- Research Fundamentals
- User Interviews

- Surveys
- Competitor Analysis
- User Observation
- Problem Identification
- Research Documentation
- User Personas
- Empathy Mapping
- Customer Journey Mapping
- Research Insights

Research methods covered depend on the selected programme.

---

05. INFORMATION ARCHITECTURE

Learn how information and content can be structured for better usability.

Topics Include:

- Content Structure
- Navigation
- Website Structure
- App Structure
- Categories
- Menus
- User Flows
- Task Flows
- Sitemap Fundamentals
- Information Hierarchy

---

06. WIREFRAMING

Create the basic structure of websites and applications before visual design.

Topics Include:

- Low-Fidelity Wireframes
- High-Fidelity Wireframes
- Website Wireframes
- Mobile App Wireframes
- Dashboard Wireframes
- Layout Planning
- Navigation Planning
- User Flow Integration
- Responsive Structure

---

07. FIGMA UI/UX DESIGN

Learn Figma as a modern interface design and prototyping tool.

Topics Include:

- Figma Interface
- Frames
- Shapes
- Text
- Images
- Components
- Auto Layout
- Constraints
- Styles

- Variants
- Assets
- Libraries
- Prototyping
- Interactive Components
- Collaboration
- Design Handoff

---

08. USER INTERFACE DESIGN

Transform wireframes into polished digital interfaces.

Topics Include:

- Web UI Design
- Mobile UI Design
- Desktop UI
- Responsive Interface Design
- Navigation
- Forms
- Buttons
- Cards
- Tables
- Modals
- Tabs
- Menus
- Search Interfaces
- Dashboards

- Landing Pages
- E-Commerce Interfaces

---

09. COLOUR & TYPOGRAPHY

Develop visual systems that are readable, consistent and suitable for digital products.

Topics Include:

- Colour Theory
- Colour Psychology Fundamentals
- Colour Palettes
- Primary & Secondary Colours
- Accessibility Considerations
- Typography
- Font Selection
- Font Pairing
- Font Hierarchy
- Readability
- Text Spacing
- Design Consistency

---

10. DESIGN SYSTEMS

Understand how reusable design components help maintain consistency across digital products.

Topics Include:

- Design System Fundamentals
- Design Tokens
- Colour Styles

- Typography Styles
- Spacing Systems
- Components
- Variants
- Buttons
- Forms
- Cards
- Navigation
- Reusable UI Patterns
- Component Libraries

---

11. PROTOTYPING

Create interactive prototypes that demonstrate how a website or application works.

Topics Include:

- Prototype Fundamentals
- Screen Connections
- Navigation
- Interactions
- Transitions
- Overlays
- Micro-Interactions
- User Flow Prototypes
- Mobile App Prototypes
- Website Prototypes
- Interactive Product Demonstrations

---

12. USABILITY TESTING

Learn how to evaluate designs and identify usability problems.

Topics Include:

- Usability Fundamentals
- User Testing
- Task-Based Testing
- Feedback Collection
- Usability Issues
- Design Evaluation
- Error Identification
- Iteration
- Improving User Experience

---

13. RESPONSIVE DESIGN

Design interfaces that work effectively across different screen sizes.

Topics Include:

- Desktop Design
- Tablet Design
- Mobile Design
- Responsive Layouts
- Breakpoints
- Flexible Components
- Responsive Navigation
- Mobile-First Concepts

- Cross-Device Design

---

14. UI/UX FOR MOBILE APPLICATIONS

Understand the specific design requirements of mobile products.

Topics Include:

- Mobile User Experience
- Android Interface Design
- iOS Interface Fundamentals
- Mobile Navigation
- Touch Interactions
- Mobile Forms
- Mobile Components
- Responsive Mobile Screens
- Mobile Prototyping
- App User Flows

---

15. UI/UX FOR WEBSITES & WEB APPLICATIONS

Learn how to design modern websites and web-based products.

Project Areas Include:

- Business Websites
- Corporate Websites
- E-Commerce Websites
- Landing Pages
- SaaS Applications
- CRM Interfaces

- Admin Dashboards
- Booking Platforms
- Education Platforms
- Healthcare Interfaces
- Business Management Applications

---

16. DEVELOPER HANDOFF

Learn how completed designs can be communicated effectively to developers.

Topics May Include:

- Design Handoff
- Measurements
- Spacing
- Assets
- Components
- Design Specifications
- Responsive Behaviour
- Developer Notes
- Figma Collaboration
- Design-to-Development Workflow

PRACTICAL UI/UX PROJECTS

BEGINNER PROJECTS

- Login & Registration Interface
- Personal Portfolio Website
- Landing Page

- Restaurant Website
- Mobile Login Flow
- Simple Dashboard

INTERMEDIATE PROJECTS

- E-Commerce Website
- Food Delivery Application
- Education Platform
- Appointment Booking Interface
- Business Dashboard
- Travel Booking Interface
- Finance Dashboard

ADVANCED PROJECTS

- Complete E-Commerce Product
- CRM Application
- Healthcare Platform
- Education / LMS Platform
- SaaS Dashboard
- Business Management Application
- Multi-Screen Mobile Application
- End-to-End Product Design Case Study

Project complexity depends on the selected programme and learner level.

UI/UX PORTFOLIO DEVELOPMENT

A strong portfolio can demonstrate your ability to understand problems and create practical design solutions.

Portfolio projects may include:

- Problem Statement
- User Research
- User Persona
- User Journey
- Information Architecture
- User Flow
- Wireframes
- UI Design
- Design System
- Prototype
- Usability Testing
- Final Design
- Case Study

The objective is to help learners present their design process, not just individual screens.

TOOLS & TECHNOLOGIES

Depending on the selected programme, learners may work with:

PRIMARY DESIGN TOOL

Figma

OTHER DESIGN & CREATIVE TOOLS

- Adobe Photoshop
- Adobe Illustrator
- Canva
- FigJam
- Other relevant design and collaboration tools

Tool coverage may vary by programme.

SKILLS YOU CAN DEVELOP

Depending on the selected programme, learners can develop skills in:

- UI Design
- UX Design
- UX Research
- Design Thinking
- User Personas
- User Journeys
- Information Architecture
- User Flows
- Wireframing
- Prototyping
- Figma
- Responsive Design
- Mobile App Design
- Website Design
- Design Systems
- Visual Design
- Typography
- Colour
- Usability Testing
- Design Handoff
- Portfolio Development

- Case Study Development

UI/UX CAREER PATHWAYS

UI/UX skills can support entry-level opportunities such as:

- UI Designer
- UX Designer
- UI/UX Designer
- Web Designer
- Product Design Intern
- UX Research Intern
- Visual Designer
- Interaction Design Intern
- Junior Product Designer
- Digital Interface Designer
- Mobile UI Designer
- Web UI Designer

Actual job titles, eligibility and employer requirements vary by organisation and role.

FREELANCING & PROJECT WORK

UI/UX professionals can also work on independent design projects for businesses and digital product teams.

Potential project areas include:

- Website Design
- Mobile App Design
- Landing Pages
- E-Commerce UI

- Dashboard Design
- SaaS Product Design
- Business Applications
- Design Systems
- Prototype Development
- UX Improvement Projects
- Website Redesign

Freelancing income and project availability depend on individual skills, portfolio quality, client requirements and market conditions.

LIVE PROJECT & PRACTICAL EXPOSURE

Depending on the selected programme, learners may receive opportunities to work on practical design projects involving:

- Website Design
- Mobile Application Design
- Dashboard Design
- E-Commerce Interfaces
- User Flows
- Wireframes
- Interactive Prototypes
- Design Systems
- Usability Testing
- Project Documentation
- Portfolio Development

The objective is to help learners apply design concepts to realistic product requirements.

INTERNSHIP OPPORTUNITIES

Eligible learners may receive information about available internship opportunities in areas such as:

- UI/UX Design
- Web Design
- Product Design
- Visual Design
- Graphic & Digital Design
- UX Research
- Mobile App Design

Paid internships may be available with certain organisations, subject to eligibility, availability and the company's selection process.

Stipend or compensation, where applicable, is determined by the organisation offering the internship.

CAREER GUIDANCE & PLACEMENT SUPPORT

Aayush Institute provides **career guidance at no additional cost** to help learners understand suitable learning and career pathways.

Support may include:

- Career Assessment
- Course Selection Guidance
- Portfolio Guidance
- Resume / CV Preparation
- Design Portfolio Review
- Interview Preparation
- Mock Interviews
- Communication & Workplace Skills
- Job Role Guidance

- Recruitment Opportunity Updates
- Placement Assistance

Placement Information

Placement assistance may be provided to eligible learners based on available opportunities.

Placement is not guaranteed. Employer selection depends on candidate skills, portfolio, qualification, interview performance, vacancies and employer selection criteria.

COURSE LEVELS

UI/UX FOUNDATION

For beginners who want to understand the fundamentals of digital design.

Design Fundamentals → UI/UX Basics → Wireframing → Figma → Basic Projects

---

PROFESSIONAL UI/UX DESIGNING

For learners who want comprehensive UI/UX design skills.

UX Research → User Flows → Wireframes → UI Design → Figma → Prototyping → Usability → Projects

---

ADVANCED UI/UX & PRODUCT DESIGN

For learners looking to develop more advanced product design capabilities.

Research → UX Strategy → Information Architecture → UI → Design Systems → Prototype → Testing → Case Study → Portfolio

---

UI/UX DESIGN VS GRAPHIC DESIGN

UI/UX DESIGN

Focuses on:

Users → Experience → Interface → Interaction → Usability → Digital Products

GRAPHIC DESIGN

Generally focuses more on:

Visual Communication → Branding → Print → Marketing Materials → Graphics

Both areas can complement each other, but their objectives and workflows are different.

WHY CHOOSE AAYUSH?

ESTABLISHED SINCE 2002

More than two decades of association with education and professional skill development.

PRACTICAL LEARNING

Focus on applying design concepts through assignments and practical projects.

MODERN DESIGN TOOLS

Training can include Figma and other relevant digital design tools.

PROJECT-BASED LEARNING

Learners can develop website, mobile application, dashboard and product design projects according to their programme level.

PORTFOLIO DEVELOPMENT

Focus on creating practical design work and case studies that can be presented as part of a professional portfolio.

CAREER GUIDANCE

Career guidance is provided at no additional cost.

INTERNSHIP OPPORTUNITIES

Eligible learners may receive access to available internship opportunities, subject to organisation requirements and selection.

PLACEMENT SUPPORT

Career preparation and placement assistance are provided based on eligibility and available opportunities.

DESIGN EXPERIENCES. SOLVE PROBLEMS. BUILD YOUR PORTFOLIO.

Learn how users think.
Understand design problems.
Create wireframes.
Design modern interfaces.
Build interactive prototypes.
Work on practical projects.
Develop a professional UI/UX portfolio.
