ABOUT US

AAYUSH INSTITUTE OF PROFESSIONAL STUDIES

Education. Skills. Industry Exposure. Career Development.

Established in 2002, Aayush Institute of Professional Studies is a private education and professional training institute focused on **IT education, professional skill development, university and distance education, practical training, and career-oriented learning**.

For more than two decades, the Institute has been associated with education and skill development, supporting students, graduates, working professionals, and career aspirants in developing academic knowledge, technical skills, and professional capabilities.

Our approach combines **structured education, practical learning, industry exposure and career guidance** to help learners build relevant skills and make informed decisions about their education and career pathways.

OUR JOURNEY

From 2002 to Today

Aayush Institute of Professional Studies was established in **2002** with a focus on education and professional skill development.

Before 2026, the Institute operated under **New Aayush Education Welfare Society**, a society registered in Delhi under the **Societies Registration Act, 1860**, as applicable.

In **2026, the management and operations of Aayush Institute of Professional Studies were taken over by Atri Admission Anytime Private Limited**, a private limited company incorporated under the applicable laws of India.

Under its current management, the Institute continues to develop its education and training ecosystem with a focus on **technology, practical skills, professional development, industry exposure, and career support**.

OUR EDUCATION & TRAINING ECOSYSTEM

IT & TECHNOLOGY EDUCATION

Our technology-focused programmes are designed to develop practical and industry-relevant skills across areas such as:

- Computer & Office Applications
- Web & Software Development
- Programming & Full Stack Development
- Artificial Intelligence & Generative AI
- Data Analytics & Business Intelligence
- Cloud, DevOps & Cyber Security
- Mobile App Development
- UI/UX & Digital Design
- Digital Marketing & E-Commerce
- Computer Hardware & Networking

UNIVERSITY & DISTANCE EDUCATION

Aayush Institute also provides guidance and support for eligible **University, Online and Distance Education programmes** offered by concerned Universities and other educational organisations.

Students may explore programmes across areas including:

- Management & Business
- Commerce & Finance
- Computer Applications & IT

- Arts & Humanities
- Science
- Education
- Healthcare & Allied Areas
- Engineering & Technology
- Vocational & Professional Education

Programme availability, eligibility, mode of study, academic requirements and certification are subject to the rules of the respective University or awarding organisation.

PROFESSIONAL & CAREER DEVELOPMENT

We offer professional and skill-based learning opportunities for different stages of a learner's career.

Our programmes are designed for:

- School & College Students
- Diploma & ITI Students
- Graduates & Freshers
- Working Professionals
- Career Changers
- Job Seekers
- Business & Professional Learners

The objective is to help learners **learn relevant skills, practise them and prepare for professional opportunities**.

OUR LEARNING MODEL

From Education to Employability

01 — EDUCATION

Build a strong foundation through structured academic and professional learning.

02 — SKILL DEVELOPMENT

Develop practical technical, digital and professional skills.

03 — PRACTICAL EXPOSURE

Apply knowledge through assignments, practical exercises and project-based learning.

04 — INDUSTRY EXPOSURE

Where applicable, gain exposure through live projects, internships and interaction with industry professionals.

05 — CAREER DEVELOPMENT

Prepare for professional opportunities through career guidance, resume development, interview preparation and placement assistance.

LEARN → PRACTICE → EXPERIENCE → PREPARE → PROGRESS

CAREER GUIDANCE

Professional Guidance for Better Career Decisions

Choosing the right course and career pathway can be an important decision. Aayush Institute provides **career guidance at no additional cost** to help learners understand available education and skill-development options.

Guidance may include:

- Career planning
- Course & skill selection
- Industry trends
- Career pathways
- Technical skill requirements
- Higher education options
- Resume & profile development
- Interview preparation
- Internship guidance

- Employment preparation

Our objective is to help students make **informed education and career decisions** based on their interests, qualifications, and career goals.

INDUSTRY EXPOSURE & INTERNSHIPS

Connecting Learning with Workplace Experience

Where available, eligible students may receive opportunities for:

- Corporate Internships
- Paid Internship Opportunities
- Live Projects
- Industry-Based Projects
- Practical Assignments
- Technical Mentoring
- Workplace Exposure
- Project Documentation
- Project Presentation

Internship opportunities are subject to **availability, eligibility, company requirements and selection by the concerned organisation**.

Where an internship is paid, the stipend or compensation is determined by the organisation offering the internship.

Internship participation does not guarantee employment or placement.

LIVE PROJECT & PRACTICAL LEARNING

Learn by Working on Projects

Practical learning is an important part of our training approach.

Depending on the programme, students may work on practical assignments and live or project-based learning activities covering areas such as:

- Web & Software Development
- Mobile Applications
- AI & Data
- Cloud & IT
- Cyber Security
- UI/UX & Digital Design
- Digital Business

Students can develop practical understanding, project experience, documentation skills and portfolio-oriented work.

CAREER & PLACEMENT SUPPORT

Preparing Students for Professional Opportunities

Aayush Institute provides career and placement assistance designed to help eligible students prepare for employment opportunities.

Support may include:

- Resume & CV Development
- Interview Preparation
- Mock Interviews
- Technical Interview Preparation
- HR Interview Preparation
- Communication & Workplace Skills
- Job Role Guidance
- Recruitment Opportunity Updates
- Placement Assistance

Placement or employment is not guaranteed. Final recruitment decisions are made by the concerned employer according to its eligibility and selection criteria.

OUR CERTIFICATE & QUALIFICATION APPROACH

Aayush Institute provides certificates for eligible students who successfully complete applicable **Institute-conducted courses and fulfil the prescribed course requirements**.

The Institute does **not make any blanket claim or guarantee that its Institute-issued certificates are automatically valid or sufficient for every Government Job or recruitment process**.

Acceptance of a certificate for Government employment depends on the requirements of the concerned Government department, recruiting authority and applicable recruitment notification.

Similarly, acceptance in private employment depends on the recruitment requirements and policies of the respective employer.

For University or third-party programmes, the applicable academic qualification and certification are governed by the **concerned University or awarding organisation**.

Students are advised to verify the applicable eligibility and recognition requirements for their intended purpose.

WHO WE SERVE

Aayush Institute supports learners across different educational and professional stages:

STUDENTS

Build academic and practical skills alongside education.

GRADUATES & FRESHERS

Develop job-oriented technical and professional capabilities.

WORKING PROFESSIONALS

Upgrade skills and explore additional education and professional learning.

CAREER CHANGERS

Build new skills for changing professional directions.

JOB SEEKERS

Improve technical, digital and workplace readiness.

BUSINESS & PROFESSIONAL LEARNERS

Develop practical digital, business and productivity skills.

WHY AAYUSH INSTITUTE

ESTABLISHED SINCE 2002

More than two decades of association with education and professional learning.

OUR VISION

Building Accessible & Relevant Learning Pathways

To contribute to an education ecosystem where learners can access **relevant knowledge, practical skills, professional exposure and informed career guidance** to support their long-term development.

OUR MISSION

EDUCATE. DEVELOP. CONNECT. PROGRESS.

Educate — Provide structured and accessible learning opportunities.

Develop — Build practical, technical and professional capabilities.

Connect — Create opportunities for industry exposure, internships and professional interaction.

Progress — Support learners in making informed academic and career decisions.

LOOKING AHEAD

Since 2002, the education and technology landscape has continued to evolve.

Aayush Institute aims to continue evolving with these changes by expanding relevant learning opportunities across **technology, professional education, practical training, industry exposure and career development**.

Our focus remains simple:

Relevant Education. Practical Skills. Industry Exposure. Career Development.
